(REPEALED January 26, 2000)

Resolution I. ROOM PICK GUIDELINES

(Adopted June 1, 1992; Revised January 7, 1993; Revised January 11, 1993; Revised January 20, 2010)

1. General Rules of Picking Order.
 1. General Order:
 1. President
 2. Vice-President
 3. Secretary
 4. Treasurer
 5. Social Chairman
 6. Athletic Manager
 7. Assistant Social Chairman
 8. Assistant Athletic Manager
 9. Peer Advocates (by card picks and class rank) - subgroup #1
 10. Seniors
 1. Senior officers - subgroup #2
 2. Class members - subgroup #3
 11. Juniors
 1. Junior officers - subgroup #4
 2. Class members - subgroup #5
 12. Sophomores
 1. Sophomore officers - subgroup #6
 2. Class members - subgroup #7
 13. Freshmen
 1. Librarian
 2. Freshmen officers - subgroup #8
 3. Class members - subgroup #9
 2. Definition of Order:
 1. Room Pick order within a class group (or subgroup) is determined by the REVERSE of the Caltech Undergraduate Fall Housing Lottery rankings occurring during the third term for upperclassmen. For freshmen, the order within the class subgroups is determined by a card pick conducted at the start of first term (after Rotation).

2. Card pick order within each subgroup is bridge order (Spades, Hearts, Diamonds, Clubs), such that the ace of spades is the highest card in the deck, the ace of diamonds is the next highest, and the two of clubs is the lowest.
3. Any student receiving a “late pick” in the Fall Housing Lottery, due to late application for the Lottery, or not participating in the Fall Housing Lottery will be placed at the bottom of the order at the time they contact the Secretary of the House.
4. Order Reversal:
 1. During the first and third terms, the picking order is as listed here.
 2. (REPEALED by Resolution VI) During second term, all subgroups reverse their picking order, with the exception of the top eight officers.

2. Specific Subgroup Picks.

1. Freshmen: Freshmen pick cards at the first room pick held after Rotation. The Frosh are Ordered as detailed above.
2. Peer Advocates:
 1. Every Peer Advocate must register for the Caltech Undergraduate Fall Housing Lottery, so that:
 1. the ranking between the Peer Advocates can be determined;
 2. in the event that a Peer Advocate opts to pick a room out of their alley and therefore must pick as a member of their class, not as a Peer Advocate, since that status is only valid within their own alley.
 2. In subsequent room picks, the Peer Advocate is not guaranteed a spot in their alley.
 1. This may occur when a Peer Advocate is in a double or a triple and loses a roommate(s).
 2. There are no lockouts for Peer Advocate in their respective alleys. If there is no open room in their alley during the entire course of the room pick, then they must use their card pick and pick a room in the house as a member of their class. An Excomm Meeting will subsequently be held to find a new Peer Advocate for this alley.
3. Super Seniors are treated as Seniors and pick as such.
3. Picks for Remaining Officers. The following is a list of additional offices that one may hold (besides top eight and teams) to pick as an officer of one's class.
 1. ASCIT Officers
 1. Interhouse Committee Chairman
 2. Interhouse Committee Secretary
 2. House Officers
 1. BOC Representative

(Adopted November 11, 2019)

2. Head Waiter
4. New Members.

1. All new members of the House will be placed at the bottom of the picking order as soon as becoming a member. The new student will pick as a member of their class.
2. Upper-class transfer students from other universities pick as freshman during the first room pick of the year, and then as members of their class for every subsequent room pick.
3. New freshmen members are guaranteed on-campus spots upon availability. If they decline an available spot, they forfeit their guarantee and pick as a member of their class according to card picks.

5. Third Term Lottery and Room Pick for the Following Year

1. During this room pick, all slots not set aside for the incoming students must be filled. If an upperclassman picks a double without a roommate, this spot will be filled during Rotation with a new student. There are no doubles-as-singles during this initial room assignment.
2. Since all freshman are guaranteed housing, and because of the way Rotation works for all new students, the House must make adequate room for these new students. Although many people voluntarily move off, it is usually necessary to use the Fall Housing Lottery results as a means to determine who can remain on campus. When the need arises to kick off students, it will be done proportionately, in such a way as to have the ratio of members remaining on-campus to those involuntarily moving off-campus in each class approximately equal between classes. When these people are kicked off, they are placed on the waiting list.
3. (REPEALED by Resolution VI) The Summer Waiting List
 1. The order of the waiting list shall be that of the Lottery Results, with the exception that students involuntarily moving off-campus are ahead of those who voluntarily moved off-campus. When students are kicked off-campus, they are the beginning of the waiting list, with the upper-most classman with the highest pick at the top of the list, and then in descending order for each subsequent class. When someone moves off campus voluntarily, they are at the bottom of the waiting list, with the freshman at the very bottom.
4. Any upperclassman that wishes to take a double (or triple) with another upperclassman must choose their roommate from the group of students with high enough picks to remain on campus. That is, no student can pick a roommate that is slated to be kicked off campus due to a low pick.
5. A student which lives off-campus, whether it was initially voluntary or involuntary, has the same priority pick as on-campus students for the following year.

6. Open Spots

1. Open spots occur when, during the course of the year, students move off-campus, leaving vacancies on-campus. All students pick within their subgroup with the pick from the third term room pick. When no students currently living off-campus opt to move on-campus, these vacancies become "open spots" and these open spots then allow for doubles to be picked as singles at the room picks. Also, no one may be forced off-campus in the middle of an academic year.
2. If there is a student who wishes to move on, the person holding a double-as-a-single with the lowest seniority in the lottery must take the roommate

(assuming no parity problems). If there are multiple people with doubles-as-singles and multiple people moving on, the people with the most seniority that are being forced into accepting roommates get to choose their roommate, until the last person with a double-as-a-single gets the remaining person moving on-campus.

3. If a vacancy appears in a multiple room, at the subsequent room pick the remaining occupant(s) has first choice to take that room to full capacity before all other House members. This new roommate must be living on-campus at the time of the room pick.

7. (REPEALED by Resolution V) Off-Campus Affiliated Housing

1. The off-campus affiliated housing is also known as the "off-campus alley." The off-campus alley also has its own card pick and can actually be thought of as its own "subgroup."

2. Due to the limited number of spots in the off-campus alley, only the card pick (bridge order) and not the class rank will be taken into account.

1. The spots in the off-campus alley go to the top spots, not the top people and someone they pick for their roommate.

2. The exception to this occurs when parity problems may exist. Also, the card pick (and waiting list) for the off-campus alley reverse second term.

3. The Off-Campus Upper-Class Counselor (OCUCC) is a representative for the Off-Campus Members of the House. Pursuant to their status as a UCC, the OCUCC has the first pick at the Off-Campus Alley. The OCUCC may decline to live at the Off-Campus Alley and sacrifice this pick.

8. Students Returning from a Leave of Absence (LOA)

1. Returning at the beginning of the academic year:

1. Any House member returning for the following academic year can be automatically entered into the room pick order by entering the Caltech Undergraduate Fall Housing Lottery. A proxy can be assigned to pick a room during the third term room pick.

2. The student picks with their class.

2. Returning during the academic year:

1. Any House member returning from a LOA is placed at the bottom of their class on the waiting list of people involuntarily forced off-campus.

9. Miscellaneous Topics

1. Parity: Because both men and women live in Fleming House and since there are triple, double and single rooms, parity problems are important. No involuntary parity may exist in a double or triple in the House.

2. Proxies: At any time when a proxy is used, this must be put into writing and signed by both the student and the proxy, and given to the Secretary in advance of the room pick.

3. General Notes:

1. All open rooms are to be displayed.

2. Rooms are offered by subgroup (top eight, Peer Advocates, Seniors, etc..)

3. Parity problems must be accounted for.

4. Open spots allow for doubles to go as singles so long as no one from off-campus wants to move on.

10. Forefeiture of Guaranteed On-Campus Pick

1. Study Abroad: In the event that a student elected to an office that carries a guaranteed room pick chooses to study abroad for a term during the tenure of that office, the guaranteed room pick chooses to study abroad for a term during the tenure of that office, the guaranteed pick associated with that office shall be voided by the student. The student shall be entered in the general pool as a member of their class.

 3. Block Definitions: A block is a set of two or more rooms in the OC alley. Blocks are defined so that the largest groups of people may pick in together. Blocks are picked with the following priority:
 1. House Lot (all buildings on one lot)
 2. Individual Buildings or Apartments
 3. Individual Floors

4. Individual room groupings designated prior to picks by the Executive Committee
4. OC ALLEY BLOCK PICKS: The procedure for block picks is as follows:
 1. The OC alley block picks occur third term for the following year before on-campus rooms are chosen, and will use the standard lottery order.
 2. Initially all OC alley blocks are available for picking (i.e., the person with the highest eligible lottery pick that has the requisite number of people may pick an entire house lot).
 3. If a block cannot be filled by any member, then it is broken down into blocks of the next highest priority.
 4. Blocks continue to be broken down until only room groupings are left unfilled. These remaining rooms will be included in the on-campus room pool.
 5. In the event that someone moves out of the OC alley during the year, the remaining inhabitants of that block have the opportunity to pull in an eligible person to fill the vacancy. Otherwise, the vacant room is picked as an individual room according to the regular picking procedures outlined in Resolution 1, Article F.
